EDUCATION

Emory University <i>Bachelor of Science</i> , Computer Science with AI Concentration, Minor in Economics Relevant Coursework: Machine Learning, Analysis of Algorithms Northeastern University Transferred to Emory	Atlanta, GA May 2027 Aug 2023 – May 2024
---	---

EXPERIENCE

Baldor Specialty Foods Product Management Intern	Bronx, NY June 2026 – Aug 2026
- Interviewed sales stakeholders and identified an approximately 15-minute-per-account prep workflow spanning five internal systems; prioritized AI assistant as the highest-value opportunity. - Defined and built the MVP end-to-end (product requirements, LLM instruction design, and recommendation algorithms), cutting estimated prep time by approximately 50% using a single natural-language interface over order history, catalog, and live pricing. - Partnered with the CTO and IT to integrate enterprise data sources and deploy the MVP while navigating security, reliability, and infrastructure constraints.	
Emory Department of Biomedical Informatics Research Assistant	Atlanta, GA Oct 2024 – Present
- Developed LLM-based tools mapping EDC fields to Common Data Elements, improving medical data interoperability. - Built Python pipelines to standardize MRI metadata across thousands of records.	
Icahn School of Medicine at Mount Sinai Research Intern	New York, NY May 2024 – Aug 2024
- Improved MRI diagnostic workflows by fine-tuning deep-learning models for automated abnormality detection. - Built scalable segmentation tools supporting clinical deployment across multiple imaging datasets.	
Khoury College of Computer Sciences, Northeastern University Research Assistant	Oakland, CA Jan 2024 – Aug 2024
- Applied AI/ML to analyze soil data points, enhancing forecasting accuracy for climate indicators. - Presented findings internationally with Fulbright Colombia.	

LEADERSHIP AND COMMUNITY INVOLVEMENT

Alpha Epsilon Pi Fraternity Vice President	Atlanta, GA Aug 2024 – Present
Oversaw operations, budgeting, and events for a 30+ member chapter, managing a \$20K per-semester budget.	
Emory Entrepreneurship and Venture Management Director of Technology	Atlanta, GA Aug 2024 – Present
Supported strategy and technical execution for early-stage startup teams and led core operations for HackATL.

ADDITIONAL INFORMATION

Interests: Sailing, Thriller Fiction, AI, Jazz
Honors & Awards: Morgan Stanley LEAD JumpStart Scholar in Finance, Dean’s List (Northeastern University)
Technical Skills: Python, SQL, JavaScript/TypeScript, Next.js, machine learning, LLM applications
Languages: English, French (intermediate)
Projects: Speedsail , Invitide , Sevenworks
Other Activities: Emory Reads, Jewish Coalition for Literacy, Intramural Soccer, Competitive Sailing, Emory Hillel
